

LYNDHURST BOARD OF EDUCATION
Lyndhurst, New Jersey 07071
Policy

File Code: 3500.1

ENERGY CONSERVATION

In response to the national energy crisis, the Board of Education directs the School Business Administrator/Board Secretary to take whatever steps are necessary to meet the current regulations of the United States Department of Energy. Whenever standards or regulations of the state having to do with energy conservation are published, the School Business Administrator/Board Secretary shall see that these standards and regulations are met also.

The Board of Education also desires that the district should conform to the spirit as well as the letter of the law, in that while certain school facilities are exempt from some energy controls, those facilities in Lyndhurst should also conform to the energy conservation standards unless there is a clear reason for not doing so.
